

# Series XC50/XC55 LED Matrix Displays

- Integrated web server
- Object-oriented layout design
- Protocol-independent communication in industrial networks

# Technical perfection

Designed for professional applications in industrial environments, the LED matrix displays of the XC50/XC55 series set a new standard with their superior technology and innovative details. The user can choose from an extensive range of ready-to-connect and easy-to-mount devices.

## Freely configurable LED matrix

Texts, numbers and graphics can be displayed on the LED matrix in brilliant colors. Graphics, symbols and pictograms can be integrated as bitmap or PNG. The LED matrix is characterized by high luminosity, durability and a large reading angle.

## Typographically designed fonts

A special feature are the typographically designed fonts with narrow, normal and bold fonts. They provide a print-like typeface and enable the ergonomically perfect presentation of information. Cyrillic, Greek and Arabic characters can also be displayed.

### Typical applications

- Process visualization, user guidance
- Andon Boards
- Visualization of production data
- Digital signage
- Traffic control technology, car park systems
- Logistics and truck call systems
- Building automation
- Energy and environment

### Easy to assemble construction

The devices are characterized by a professional industrial design. Quick-release fasteners on the housings provide convenient access to all connections and components.

The devices shown are partly equipped with a weather protection cover (option). It protects the devices from rain, snow and ice as well as from heat-up by solar radiation and is recommended for outdoor devices.

# Intelligent features

## Integrated web server

An innovative feature of the XC50/XC55 series is the integrated web server. It enables convenient parameterization of the devices via a standard web browser from a PC or mobile device without the need to install PC software. The information to be displayed can also be entered manually via the web interface.

## Object-oriented control

An advantage of the object-oriented control is the separation of layout and data. Layout objects (display fields) are defined on the matrix, e.g. for texts, numerical information, graphics (BMP, PNG), luminous indicator fields, bar graphs, date/time formats as well as time/date counting.

Position, size and level of the layout objects are freely selectable. All objects can be controlled independently from each other. The formatting (color, font, background, color change, blinking, etc.) can be set individually for each object and are automatically assigned to the user data. If, for example a color change is preset when the threshold value is exceeded, it is carried out automatically and without a special command.

## Remote access

The current displayed information can be called up in photorealistic form via the network or the Internet, status information can also be requested, data can be entered and parameters can be changed.

## Ethernet and WLAN

The devices can be controlled via their Ethernet interface. Optionally they can additionally be controlled via WLAN IEEE 802.11 b/g/n (see page 14). Ethernet and WLAN can be used at the same time.

## Layout Editor

The devices offer a variety of predefined layouts. In addition, the layout editor offers the comfortable design of individual layouts.

### Smart control in Profinet environments

The integrated PLC connector cyclically interrogates the information to be displayed in the web server of the PLC with HTTP and displays them on the LED matrix. The programming is done by transferring two files generated by the display. If several devices are integrated this does not increase the number of participants in the network.

### Power Saving

The LED matrix can be darkened for individually programmable weekdays to reduce the energy consumption. The web server remains active in the background, so that the JSON interface and the PLC connector remain accessible.

### Optimal safety by user management

The user rights management allows individual access and administrator rights. The access control over the web server is carried out via the user authentication.

### Potential-free switching output

External peripheral units, such as signal transmitters, traffic lights, etc. can be controlled using the JSON protocol or manually via the web site with a potential-free switching output.

### Text and graphics memory

The devices have a memory in which texts and graphics can be stored with an address. To display them on the LED matrix, just call up the corresponding address, without having to send the data again.

# Type program

## Series XC50 – Indoor devices

The XC50 series is designed for indoor application. One- and double-sided readable displays are offered. The displays readable from one side have a LED matrix on the front, the displays readable from two sides have a LED matrix on the front and on the back.

The displays that can be read from one side are for wall mounting with cable entry on the bottom of the housing. The displays readable from two sides are for pendant mounting with cable entry on the top of the housing.

The matrix P4 has a pixel pitch of 4 mm, the matrix P8 has a pixel pitch of 8 mm. Possible font sizes see page 13.

## Series XC55 – Outdoor devices

The XC55 series is designed for outdoor use. It has a daylight capable LED matrix with automatic brightness control. The minimum and maximum brightness are individually adjustable. The housings have a weatherproof lacquer finish, in addition an integrated heater and a pressure compensation element ensure that no condensation water can occur in the housing with temperature fluctuations.

The displays are for wall mounting with cable entry on the bottom of the housing and have side ventilation grills.

The matrix P8 has a pixel pitch of 8 mm, the matrix P16 has a pixel pitch of 16 mm. Possible font sizes see page 13.

Optional weather protection covers are available. They protect the devices from rain, snow and ice as well as from heat-up by solar radiation (see page 15).

<sup>2</sup> Housings with rear doors and ventilation grills, rear or pendant mounting.

# Fonts

The devices have typographically designed fonts. As in office programs, they provide a graphically and ergonomically perfect presentation of information, with narrow normal and bold fonts.

|                        |                     |                                      |
|------------------------|---------------------|--------------------------------------|
| 7 pixel<br>high fonts  | Metric 7 Regular    | XC series - the new standard         |
|                        | Aryana 7 Regular    | XC series - the new standard         |
|                        | Aryana 7 Bold       | <b>XC series - the new standard</b>  |
| 14 pixel<br>high fonts | Metric 14 Regular   | XC series - that's innovation        |
|                        | Aryana 14 Condensed | XC series - that's innovation        |
|                        | Aryana 14 Regular   | XC series - that's innovation        |
|                        | Aryana 14 Bold      | <b>XC series - that's innovation</b> |
| 30 pixel<br>high fonts | Metric 30 Regular   | Industry 4.0                         |
|                        | Aryana 30 Regular   | Industry 4.0                         |

The fonts «Metric» show each character with the same width (equidistant fonts).

The fonts «Aryana» are proportional fonts (recommended) and show each character only with the actually needed width – so one line can display more characters, as shown in the font samples above.

The following table shows how many characters can be displayed in one line, depending on the font selected.

The actual number of characters depends on the text to be displayed. The specifications are guide values.

| Width of the LED matrix | 32 pixel | 64 pixel | 96 pixel | 128 pixel | 192 pixel | 256 pixel |
|-------------------------|----------|----------|----------|-----------|-----------|-----------|
| Aryana 7 Regular        | 6        | 13       | 19       | 26        | 39        | 52        |
| Aryana 7 Bold           | 4        | 9        | 14       | 19        | 28        | 37        |
| Metric 7 Regular        | 5        | 10       | 16       | 21        | 32        | 42        |
| Aryana 14 Condensed     | 5        | 9        | 14       | 19        | 29        | 39        |
| Aryana 14 Regular       | 4        | 8        | 13       | 17        | 26        | 35        |
| Aryana 14 Bold          | 3        | 7        | 10       | 14        | 20        | 27        |
| Metric 14 Regular       | 3        | 7        | 10       | 14        | 21        | 28        |
| Aryana 30 Regular       | 2        | 4        | 6        | 8         | 13        | 17        |
| Metric 30 Regular       | 2        | 4        | 6        | 8         | 12        | 16        |

Depending on the pixel pitch of the LED matrix there are the following character heights:

| Font                 | Matrix P4 | Matrix P8 | Matrix P16 |
|----------------------|-----------|-----------|------------|
| Aryana 7, Metric 7   | 28 mm     | 55 mm     | –          |
| Aryana 14, Metric 14 | 55 mm     | 110 mm    | 220 mm     |
| Aryana 30, Metric 30 | 120 mm    | 240 mm    | 480 mm     |

# Options

The devices are optimized for professional use.  
For further requirements corresponding options are possible.

## Options for indoor devices

|                 |   |   |                         |
|-----------------|---|---|-------------------------|
| Control         | Standard  | Ethernet  |                         |
|                 | Optional  | Additionally WLAN IEEE 802.11 b/g/n   | XC50-xxx.xxx.xx-xxxx-W1 |
| Housing         | Standard  | Steel sheet powder coated   |                         |
|                 | Optional  | Stainless steel V2A brushed (material 1.4301)   | XC50-xxx.xxx.xx-Exxx-xx |
|                 |   | Stainless steel V2A powder coated (material 1.4301)   | XC50-xxx.xxx.xx-Gxxx-xx |
|                 |   | Stainless steel V4A brushed (material 1.4571)   | XC50-xxx.xxx.xx-Kxxx-xx |
|                 | Stainless steel V4A powder coated (material 1.4571) | XC50-xxx.xxx.xx-Mxxx-xx   |                         |
| Protection type | Standard  | IP54  |                         |
|                 | Optional  | IP65  | XC50-xxx.xxx.xx-x6xx-xx |
| Mounting        | Standard  | See page 6  |                         |
|                 | Optional  | Displays readable from one side:<br>Pendant mounting, cable entry on the top of the housing<br>(except XC50-192.048.G1-xxxx-xx, XC50-192.064.G1-xxxx-xx,<br>XC50-256.048.G1-xxxx-xx, XC50-256.064.G1-xxxx-xx,<br>XC50-256.096.G1-xxxx-xx und XC50-256.128.G1-xxxx-xx) | XC50-xxx.xxx.xx-xxFx-xx |

## Options for outdoor devices

|              |          |   |                         |
|--------------|----------|---|-------------------------|
| Control      | Standard | Ethernet  |                         |
|              | Optional | Additionally WLAN IEEE 802.11 b/g/n   | XC55-xxx.xxx.xx-xxxx-W1 |
| Housing      | Standard | Steel sheet, electrolytically galvanized, weatherproof two-layer powder coating |                         |
|              | Optional | Stainless steel V2A powder coated (material 1.4301)                             | XC55-xxx.xxx.xx-Gxxx-xx |
|              |          | Stainless steel V4A powder coated (material 1.4571)                             | XC55-xxx.xxx.xx-Mxxx-xx |
| Power supply | Standard | 230 V AC $\pm$ 15 %, 50/60 Hz   |                         |
|              | Optional | 115 V AC $\pm$ 15 %, 50/60 Hz   | XC55-xxx.xxx.xx-xxx3-xx |

## Weather protection cover

For outdoor devices (series XC55) a weather protection cover is recommended. It protects the devices from rain, snow, ice as well as from heat-up by solar radiation.

The following figure shows unit version XC55-128.032.C4A2-xx with weather protection cover representing the other devices listed in the table. Dimensions in mm. The weights are approximate values in kg.

| Weather protection cover | Width | Suitable for unit version   | E   | F  | Weight |
|--------------------------|-------|---|-----|----|--------|
| XCA100-060K-C            | 600   | XC55-064.016.G1-xxxx-xx, XC55-064.032.G1-xxxx-xx, XC55-032.016.P1-xxxx-xx   | 180 | 55 | 4      |
| XCA100-086K-C            | 860   | XC55-096.016.G1-xxxx-xx, XC55-096.032.G1-xxxx-xx, XC55-048.016.P1-xxxx-xx   | 180 | 55 | 5      |
| XCA100-111K-C            | 1110  | XC55-128.016.G1-xxxx-xx, XC55-128.032.G1-xxxx-xx, XC55-128.048.G1-xxxx-xx,<br>XC55-128.064.G1-xxxx-xx, XC55-064.016.P1-xxxx-xx, XC55-064.032.P1-xxxx-xx | 180 | 55 | 6      |

|----------|---|---------------|
| Standard | Steel sheet, electrolytically galvanized, weatherproof two-layer powder coating |               |
| Optional | Stainless steel V2A powder coated (material 1.4301)                             | XCA100-xxxx-G |
|          | Stainless steel V4A powder coated (material 1.4571)                             | XCA100-xxxx-M |

# Dimensions and weights

Series XC50 – Indoor devices, readable from one side

The following figure shows unit version XC50-096.032.G1-xxAx-xx representing the other devices listed in the table. Dimensions in mm. The weights are approximate values in kg.

| Devices with matrix P4  | A    | B   | D  | Ø  | Weight |
|-------------------------|------|-----|----|----|--------|
| XC50-128.032.C1-xxAx-xx | 640  | 280 | 16 | 7  | 9      |
| XC50-192.032.C1-xxAx-xx | 900  | 280 | 16 | 7  | 12     |
| XC50-256.032.C1-xxAx-xx | 1150 | 280 | 20 | 9  | 16     |
| XC50-128.064.C1-xxAx-xx | 640  | 410 | 16 | 7  | 13     |
| XC50-192.064.C1-xxAx-xx | 900  | 410 | 20 | 9  | 17     |
| XC50-256.064.C1-xxAx-xx | 1150 | 410 | 20 | 9  | 21     |
| XC50-256.096.C1-xxAx-xx | 1150 | 540 | 25 | 11 | 27     |
| XC50-256.128.C1-xxAx-xx | 1150 | 670 | 25 | 11 | 32     |

| Devices with matrix P8  | A    | B   | D  | Ø  | Weight |
|-------------------------|------|-----|----|----|--------|
| XC50-064.016.G1-xxAx-xx | 640  | 280 | 16 | 7  | 9      |
| XC50-096.016.G1-xxAx-xx | 900  | 280 | 16 | 7  | 12     |
| XC50-128.016.G1-xxAx-xx | 1150 | 280 | 20 | 9  | 16     |
| XC50-192.016.G1-xxAx-xx | 1660 | 280 | 20 | 9  | 24     |
| XC50-256.016.G1-xxAx-xx | 2180 | 280 | 25 | 11 | 32     |
| XC50-064.032.G1-xxAx-xx | 640  | 410 | 16 | 7  | 13     |
| XC50-096.032.G1-xxAx-xx | 900  | 410 | 20 | 9  | 17     |
| XC50-128.032.G1-xxAx-xx | 1150 | 410 | 20 | 9  | 22     |
| XC50-192.032.G1-xxAx-xx | 1660 | 410 | 25 | 11 | 32     |
| XC50-256.032.G1-xxAx-xx | 2180 | 410 | 25 | 11 | 42     |
| XC50-128.048.G1-xxAx-xx | 1150 | 540 | 25 | 11 | 28     |
| XC50-128.064.G1-xxAx-xx | 1150 | 670 | 25 | 11 | 34     |

The following figure shows unit version XC50-192.048.G1-xxEx-xx representing the other devices listed in the table. Dimensions in mm. The weights are approximate values in kg.

| Devices with matrix P8               | A    | B    | C   | Weight |
|--------------------------------------|------|------|-----|--------|
| XC50-192.048.G1-xxFx-xx              | 1750 | 680  | 130 | 73     |
| XC50-256.048.G1-xxFx-xx              | 2260 | 680  | 130 | 96     |
| XC50-192.064.G1-xxFx-xx              | 1750 | 810  | 130 | 89     |
| XC50-256.064.G1-xxFx-xx              | 2260 | 810  | 130 | 115    |
| XC50-256.096.G1-xxFx-xx <sup>1</sup> | 2260 | 1070 | 130 | 180    |
| XC50-256.128.G1-xxDx-xx <sup>1</sup> | 2260 | 1330 | 150 | 220    |

<sup>1</sup> Rear mounting holes Ø13 not existent.

Indoor devices, readable from two sides

The following figure shows unit version XC50-096.032.G2-xxDx-xx representing the other devices listed in the table.

Dimensions in mm. The weights are approximate values in kg.

| Devices with matrix P4  | A    | B   | Weight |
|-------------------------|------|-----|--------|
| XC50-128.032.C2-xxDx-xx | 640  | 280 | 14     |
| XC50-192.032.C2-xxDx-xx | 900  | 280 | 17     |
| XC50-256.032.C2-xxDx-xx | 1150 | 280 | 23     |
| XC50-128.064.C2-xxDx-xx | 640  | 410 | 19     |
| XC50-192.064.C2-xxDx-xx | 900  | 410 | 25     |
| XC50-256.064.C2-xxDx-xx | 1150 | 410 | 31     |

| Devices with matrix P8  | A    | B   | Weight |
|-------------------------|------|-----|--------|
| XC50-064.016.G2-xxDx-xx | 640  | 280 | 14     |
| XC50-096.016.G2-xxDx-xx | 900  | 280 | 18     |
| XC50-128.016.G2-xxDx-xx | 1150 | 280 | 24     |
| XC50-192.016.G2-xxDx-xx | 1660 | 280 | 36     |
| XC50-256.016.G2-xxDx-xx | 2180 | 280 | 48     |
| XC50-064.032.G2-xxDx-xx | 640  | 410 | 20     |
| XC50-096.032.G2-xxDx-xx | 900  | 410 | 26     |
| XC50-128.032.G2-xxDx-xx | 1150 | 410 | 33     |
| XC50-192.032.G2-xxDx-xx | 1660 | 410 | 48     |
| XC50-256.032.G2-xxDx-xx | 2180 | 410 | 63     |
| XC50-128.048.G2-xxDx-xx | 1150 | 540 | 42     |
| XC50-128.064.G2-xxDx-xx | 1150 | 670 | 51     |

The following figure shows unit version XC50-192.048.G2-xxDx-xx representing the other devices listed in the table.

Dimensions in mm. The weights are approximate values in kg.

| Devices with matrix P8  | A    | B   | Weight |
|-------------------------|------|-----|--------|
| XC50-192.048.G2-xxDx-xx | 1750 | 680 | 110    |
| XC50-256.048.G2-xxDx-xx | 2260 | 680 | 144    |
| XC50-192.064.G2-xxDx-xx | 1750 | 810 | 134    |
| XC50-256.064.G2-xxDx-xx | 2260 | 810 | 173    |

### Series XC55 – Outdoor devices

The following figure shows unit version XC55-096.032.G1-xxAx-xx representing the other devices listed in the table. Dimensions in mm. The weights are approximate values in kg.

| Devices with matrix P8  | A    | B   | D  | Ø  | Weight |
|-------------------------|------|-----|----|----|--------|
| XC55-064.016.G1-xxAx-xx | 600  | 235 | 16 | 7  | 9      |
| XC55-096.016.G1-xxAx-xx | 860  | 235 | 16 | 7  | 12     |
| XC55-128.016.G1-xxAx-xx | 1110 | 235 | 20 | 9  | 16     |
| XC55-192.016.G1-xxAx-xx | 1620 | 235 | 20 | 9  | 24     |
| XC55-256.016.G1-xxAx-xx | 2140 | 235 | 25 | 11 | 32     |
| XC55-064.032.G1-xxAx-xx | 600  | 360 | 16 | 7  | 13     |
| XC55-096.032.G1-xxAx-xx | 860  | 360 | 20 | 9  | 17     |
| XC55-128.032.G1-xxAx-xx | 1110 | 360 | 20 | 9  | 22     |
| XC55-192.032.G1-xxAx-xx | 1620 | 360 | 25 | 11 | 32     |
| XC55-256.032.G1-xxAx-xx | 2140 | 360 | 25 | 11 | 42     |
| XC55-128.048.G1-xxAx-xx | 1110 | 490 | 25 | 11 | 28     |
| XC55-128.064.G1-xxAx-xx | 1110 | 620 | 25 | 11 | 34     |

| Devices with matrix P16 | A    | B   | D  | Ø  | Weight |
|-------------------------|------|-----|----|----|--------|
| XC55-032.016.P1-xxAx-xx | 600  | 360 | 16 | 7  | 13     |
| XC55-048.016.P1-xxAx-xx | 860  | 360 | 20 | 9  | 17     |
| XC55-064.016.P1-xxAx-xx | 1110 | 360 | 20 | 9  | 23     |
| XC55-096.016.P1-xxAx-xx | 1620 | 360 | 25 | 11 | 33     |
| XC55-128.016.P1-xxAx-xx | 2140 | 360 | 25 | 11 | 43     |
| XC55-064.032.P1-xxAx-xx | 1110 | 620 | 25 | 11 | 35     |

The following figure shows unit version XC55-192.048.G1-xxEx-xx representing the other devices listed in the table. Dimensions in mm. The weights are approximate values in kg.

| Devices with matrix P8  | A    | B   | Weight |
|-------------------------|------|-----|--------|
| XC55-192.048.G1-xxEx-xx | 1690 | 530 | 58     |
| XC55-256.048.G1-xxEx-xx | 2200 | 530 | 75     |
| XC55-192.064.G1-xxEx-xx | 1690 | 660 | 72     |
| XC55-256.064.G1-xxEx-xx | 2200 | 660 | 93     |

| Devices with matrix P16 | A    | B   | Weight |
|-------------------------|------|-----|--------|
| XC55-096.032.P1-xxEx-xx | 1690 | 660 | 74     |
| XC55-128.032.P1-xxEx-xx | 2200 | 660 | 96     |

The following figure shows unit version XC55-256.096.G1-xxEx-xx representing the other devices listed in the table. Dimensions in mm. The weights are approximate values in kg.

| Devices with matrix P8  | H    | Weight |
|-------------------------|------|--------|
| XC55-256.096.G1-xxEx-xx | 920  | 160    |
| XC55-256.128.G1-xxEx-xx | 1180 | 200    |

| Devices with matrix P16 | H    | Weight |
|-------------------------|------|--------|
| XC55-128.048.P1-xxEx-xx | 920  | 170    |
| XC55-128.064.P1-xxEx-xx | 1180 | 215    |

# Special equipment

## Air conditioning unit

For the use under very high ambient temperatures certain devices can be equipped with an air conditioning unit.

## Glass front panel

The indoor devices of the XC50 series have front panels made of high-quality plastics. In the event of flying sparks, radiant heat or similar effects, they can be equipped with front panels made of safety glass.

The dimensions of the devices can therefore vary.

## Lockable housings

The devices can be easily opened and closed with quick-release fasteners. Optionally lockable closures are possible.

## Mast mounting/pedestal mounting

Appropriate mounting accessories are available for mounting the devices to masts. For bigger devices pedestal systems are offered.

## Connectors

Cables for data and power supply are fed through cable glands. The devices are optionally available with plug connectors for the data and the power supply cables.

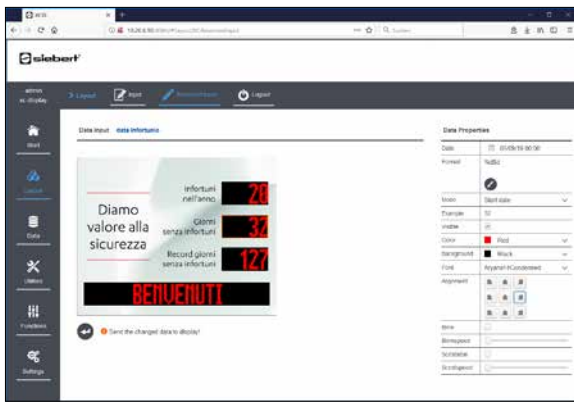

## Acoustic and optical signallers

The devices can be equipped with flashing lights, rotating beacons, horns or sound modules to, p.e. signal a change of information on the display.

# System solutions

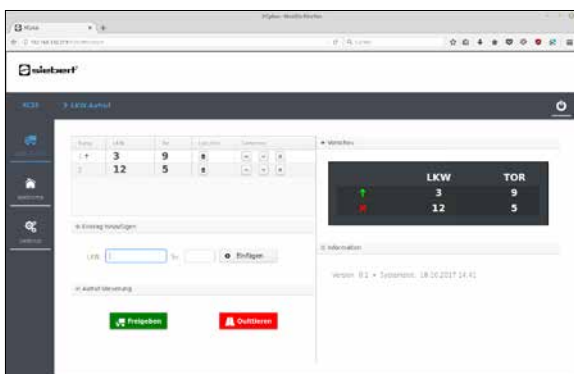

User or sector specific solutions can be implemented cost-effectively. The operation takes place via the web interface. Examples are call systems, control systems, production control, etc.

Display board for safety at work

Guidance system for vehicles

Truck call system
